
Pop-Up Walls

Multi-panel Pop-Up Walls are a truly professional looking display.

Multiple panels create a seamless appearance throught the use of hangers and magnetic locating strips. These can be assembled in minutes without any special tools.

Each Pop-Up Wall comes complete with frame components, rollable and durable panels, and 2 halogen lights. Straight, or non curved displays come with 2 feet for extra stability. All this fits into a rigid carry case on wheels and extending handle for complete protection and mobility.

Available in 3x3 (3 centre panels and 2 curved end columns), or 4x3 (4 centre panels and 2 curved end columns) in either curved or straight profiles.
